

CHAPTER V

CONCLUSIONS AND SUGGESTION

This chapter provides the conclusions of the research and the suggestions.

A. Conclusions

Based on the analysis of the discussion from previous chapter, the conclusions as follows:

1. There is significant difference between students who were taught by using cooperative learning and problem based learning approach in teaching grammar. Students who were taught by using cooperative learning approach is better than problem based learning approach.
2. The implementation of cooperative learning in form snowball throwing technique has a good effect for students that their cooperative and leadership skills were improved and the atmosphere of the classroom became enjoyable so that they can be motivated to learn grammar.
3. The student's difficulties in learning grammar were they did not know the meaning of some words and they could not use the form appropriately.

B. Suggestions

Based on the result of this study, then the suggestions can be stated as follows:

1. For the teachers

In teaching and learning process, teachers are suggested to use cooperative learning in form snowball throwing technique in teaching grammar especially in learning grammar tense due to it has been proven that cooperative learning is effective in teaching grammar.

2. For the students

The students are suggested to improve their vocabulary and to use English grammar appropriately in daily life, so that their grammatical difficulties could be decreased.
