

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

In this chapter the researcher would be described the conclusions and suggestion based on the finding and disscusion about a descriptive qualitative research in teaching writing recount text through Project Based learning Method with Picture Series Media at A Junior High School.

A. Conclusions

Based on the result of the research, the researcher can draws some conclusion, those are described as follows:

1. The use of scenario that has been made by the researcher includes four meetings. The researcher implemented Project Based Learning method in teaching writing recount text which accordance to the scenario created by the researcher which covers six stages such as the determining the basic questions, planning, creating the schedule, monitor thee progress, asses the outcome, and evaluate.
2. The teacher and students' gave positive responses toward the teaching and learning writing recount text through Project Based Learning method includes three meetings. The teacher gave responses positively to the researcher

that the Project Based Learning method is effective method, be able to make the students easier to be understood the material also make the students more enthusiasm to participate in the learning process. Meanwhile, the students also gave a positive responses that the students like and interested to the Project Based Learning method, and the students felt that method can increased their writing skill be better.

3. The difficulties faced by the students related to five aspect of writing such as, language use, organization, vocabulary, content, and mechanism. The highest difficulty faced by students was revealed in the language use or grammar aspect, with a difficulty level of 56% or more than half of students found it difficulties to use language use or grammar aspect in learning writing recount text through the Project Based Learning method.

B. Suggestions

Based on the result of the research and conclusion above, the researcher would like to give the suggestion that will be useful for the people especially related to the English teaching. The suggestions are as follows:

1. Suggestions for the teacher

The teacher are expected to know suitable methods or techniques will be use in teaching. The teacher should use

media in teaching learning process that can make the students help and enjoyed of delivery the material by the teacher. It can be make the students easier in memorize the material. After that, the teacher should give motivation and more active, creative, patient and in the teaching learning process.

2. Suggestions for the students

The students should pay attention toward the lesson and to the teacher when gives explanation of material. The students also shoul be more active, have a high self-confidence in English learning process aspecially in writing.

3. Suggestion for the futher researcher

This research hopefully can be useful for other researcher who will conducting the research. The researcher are expects to other researcher to explore deeper in determine many kinds of method that appropriate the effectiveness the students in learning process especially in writing skill.
