

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter, the researcher presents the conclusion of this research and suggestion based on finding and discussion using picture through whatsapp group at seventh grade students in 7E class at SMPIT Fithrah Insani in Bandung. Based on the result in the previous chapter, the researcher would like to summarize some conclusion as follow:

A. Conclusion

1. The Implementation of picture through whatsapp in teaching writing descriptive text.

In this research, researcher conducted observation, questionnaire, interview and test to find how the implementation was, teacher and students responses and students' difficulties which faced by students.

Based on the result the english teacher from the school found out that the researcher who taught in online class and used picture through whatsapp group applied it according to the lesson plan. It means all of the activities or steps in teaching learning process were in accordance with what should have been.

The English teacher and students felt the same, the technique which researcher applied and the teaching media were effective and interesting. They responded positive. All of them liked English, and most of them like writing but they had lack of vocabulary. They felt that the method and the media made them easier to understand and made them not to be bored in the teaching learning process. The researcher did not find any serious problem in teaching, but most of students had

difficulties in writing descriptive text. They had difficulty in mastering vocabularies and the grammar. Most of students made mistakes because they did not fully understand what the words in English, and the tenses that they used when they were writing the descriptive text. They failed to apply the knowledge of grammar.

B. Suggestion

Based on the research, researcher would like to give some suggestions related to teaching learning writing skill.

1. For the English Teacher

- a. Teacher should give students more practice to use their English language in written form.
- b. As educator teacher should be more creative in choosing method and media in English teaching learning process in order to make students more interest in material that delivered by teacher. It means that teacher should observe and decide which method is appropriate in learning material and also the use of teaching method which can influence the result of the learning.
- c. Teachers should be more attractive, and confident during teaching and learning process.
- d. Teachers should make the situation of the online class especially whatsapp group to be more enjoyable. They should create different atmosphere, pay more attention in learning process, and make the students feel relax and fun during learning process.

- e. Teachers should pay more attention to teach vocabulary. Because, the vocabulary aspect is important for such as speaking, writing and other fields.
- f. Teacher should know more teaching learning method, because the same teaching method is not always effective in other materials.

2. For the Students

- a. Students should be active in the class, in order that the materials can be given by the teacher quickly and do not spend a lot of time.
- b. Students should not be afraid of making mistakes in making composition of writing.
- c. Students should read more from any sources in order to get any knowledge. So, they can make a good product of writing.

3. For the Further Research

- a. The result of this study can be used as basic information to do the further investigation.
- b. This research can be used as reference to conduct future research in applying the same method and media in different material or different classes.
- c. The different skill is also suggested in future research to find out whether these teaching approaches can be implied in all kinds of skill.
